J. W. DILLON. and 4 Bolater Block, Barre, Vt. CENSUS SPECIAL AGENTS.

Advisory Staff Appointed for Temporary Service.

Washington, D. C., Aug. 31.—The for-mulation of the census schedules, upon which the enumerators will enter the information they secure next April, is ne of the most important subjects now before U. S. Census Director Durand and

Assistant Director Willoughby.

The census law authorizes the director to determine the form and subdivision of

the inquiries necessary to secure the information ordered by Congress.

To assist in this work Director Durand Monday, Tuesday, Thursday and has secured the co-operation of a score or more of experts in statistics, economics, agriculture, manufactures, etc. They have been appointed expert special agents to serve for a short time while the work of formulating plans are under way and are now assembled in Washing-ton. The agriculture, manufactures, and population schedules are the principal

ies under current discussion.

In the formulation of the agricultural Harte, Vermont

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to care it you must take internally, and acut directly on the blood and muccus surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is country for years and is a regular prescription. It is composed of the best tanics known, combined with the best blood purifiers, acting directly on the anacous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh, Rend for testimonials free.

HOMEMADE ICE CREAM.

Freeze it at Least a Day Before it is to Be Used.

"The best ice cream is stale ice cream," said the ice cream manufacturer. "You never hear of colle from ice cream among children who have never met the homemade article. It is a queer thing that it would ruin a manufacturer to sell fresh goods, whereas if you know it is homemade and just out of the freezer you will praise it to the skies as being the superior of anything manufactured anywhere.

"If you want your homemade cream to be really good and healthy make it at least a day before you use it. Churn it hard, but not too hard, and then pack it away in salted ice until you are ready to serve it. In this way all the little particles of ice which make homemade cream so gritty and really barmful will have disappeared. The cream will sort of absorb the water that forms the tce, so to speak; consequently your cream will be frozen, not frapped. It is a daring manufacturer who risks his trade by shipping cream less than a week old. Sometimes I store my goods to fee as much as two weeks. That isn't a bit too long. either, although it takes a heap of ice." -New York Press.
